POP Declaration of Conformity

In accordance with Regulation (EU) 2019/1021 on Persistent Organic Pollutants, Cardo Systems LTD hereby declares that its product families are compliant with the requirements of the Regulation.

We confirm that the products covered do not contain any substances listed in Annex I above applicable concentration limits or outside any specific exemptions.

Where Annex II restrictions apply, all restriction conditions are fulfilled. If no Annex II entries are applicable to the products covered by this declaration at the time of signing, Cardo confirms no Annex II restricted use applies.

Our manufacturing processes are controlled to prevent and minimize unintentional formation and release of POPs listed in Annex III, in line with Article 6. Cardo maintains process controls and good environmental practices to manage any potential POPs.

Cardo ensures that waste containing POPs is identified and managed in accordance with Annex IV low-POP concentration limits.

Compliance is assured through supplier material declarations collection.

Cardo is committed to maintaining up-to-date compliance with the POP Regulation. This declaration will be updated if any product changes, material changes, or new legal requirements affect its validity.
