

CARDO VENTURE SPECIFICATIONS

SAFETY

- Composite shell
- 4-density impact foam
- ECE R22.06 and DOT homologated
- 360° Turbine Technology:
 - Rotation protection: the optimally designed turbine discs enable the helmet to move slightly on the head upon impact, helping to reduce peak acceleration to the head and brain
 - Low impact protection: the special energy absorbing material in the turbines absorbs low impact energy associated with concussion
- Emergency release cheek pads system
- Double D-ring fastener
- Breakaway visor

COMFORT

- PRO-FIT™ tech: the modulating pad set provides unsurpassed comfort with any head shape
- Ionic+®: naturally self-cleaning antimicrobial technology that inhibits the growth of odor-causing bacteria, keeping your helmet fresher for longer and reducing the need for frequent washing
- Six sizes, three shells
- Low & high speed ventilation channels – Large ventilation ports for cooling even at low speeds

SOUND & CONNECTIVITY

- 40mm Sound by JBL speakers
- 2nd gen Dynamic Mesh Communication (DMC)
- 15 riders
- Range of up to 1.6km/1 mi.
- Natural voice operation
- IP67 Waterproof
- Live Bluetooth intercom for connecting with any other major brand
- Music sharing
- Over-The-Air software update
- All electronic components are removable, serviceable and upgradable
